

SB.11 BLOCK PAVED PARKING POST

FLUSH FOLD DOWN PARKING POST

When not in use, our SB11BP post tucks neatly into a coffin type box which is concreted into the ground, giving it a completely flush surface, allowing you to drive over it to your hearts content. Ideal where you have block paving and need a good post to fit neatly in. Completed with an integral lock (comes with two keys) and also available keyed alike for quantities of two or more at an extra cost. Our SB11BP is coated with a Zinc Plated finish to protect against the weather and rusting.
