

SB.22 SPEED RAMP

INFORMATION SHEET

Speed Ramps are a highly effective means of controlling traffic speeds, the modular system is formed from black and bright yellow segments made from heavy duty recycled PVC. Each segment includes white reflectors which provide excellent night and bad weather visibility. Both ends and inners are available in black and yellow, all segments are sold separately to accommodate any road width.

FEATURES:

- Made from heavy duty recycled PVC
- Each segment includes white reflectors which provide excellent night and bad weather visibility
- Both ends and inners are available in black and yellow
- Segments are sold separately to accommodate any road width
- All bolts, fixings and reflectors are included with the ramp segments (bolts supplied are recommended for concrete fixing)
- **Also suitable for HGV'S up to 44 tonne**
- **Not suitable for solid tyred vehicles such as solid tyred fork lift trucks**
- **All come with built in channels for any extra wiring e.g. traffic lights, fairground etc.**

SPECIFICATION:

Centre section

- Length 500mm x Width 420mm x Height 50mm
