

## SB.2I PARKING BARRIER

### INTEGRAL LOCK

The SB.2I Parking Barrier offers savings where UNIT cost is all important; it's winged design acts as a deterrent against parking in empty spaces and between.

The integral lock facility comes complete with two keys and enables the barrier to lock in the up and down position. For easy installation the SB2has four holes in the base to bolt down to ground surface. Powder coated with a high visibility yellow finish.

#### Measurements:

- Overall height, upright position 685mm
- Overall width 700mm
- Height in collapsed position only 60mm
